

CSC 510 - HW3 - Group 33: Devanshu Shah - [dashah2](#)

- ## 1. Installed the Plugins using :PlugInstall

A screenshot of a Vim terminal window titled "[Plugins] - (~) - VIM". The window has standard Linux window controls (minimize, maximize, close). A red status bar at the top displays "Updated. Elapsed time: 0.365681 sec." followed by "[====]" on the next line. Below this, a list of plugins and their installation status is shown:

- Finishing ... Done!
- fzf: Already installed
- vim-colorschemes: Already installed
- nerdtree: Already installed
- fzf.vim: Already installed

The rest of the terminal buffer contains several tilde (~) characters, indicating that the output has been scrolled off the screen.

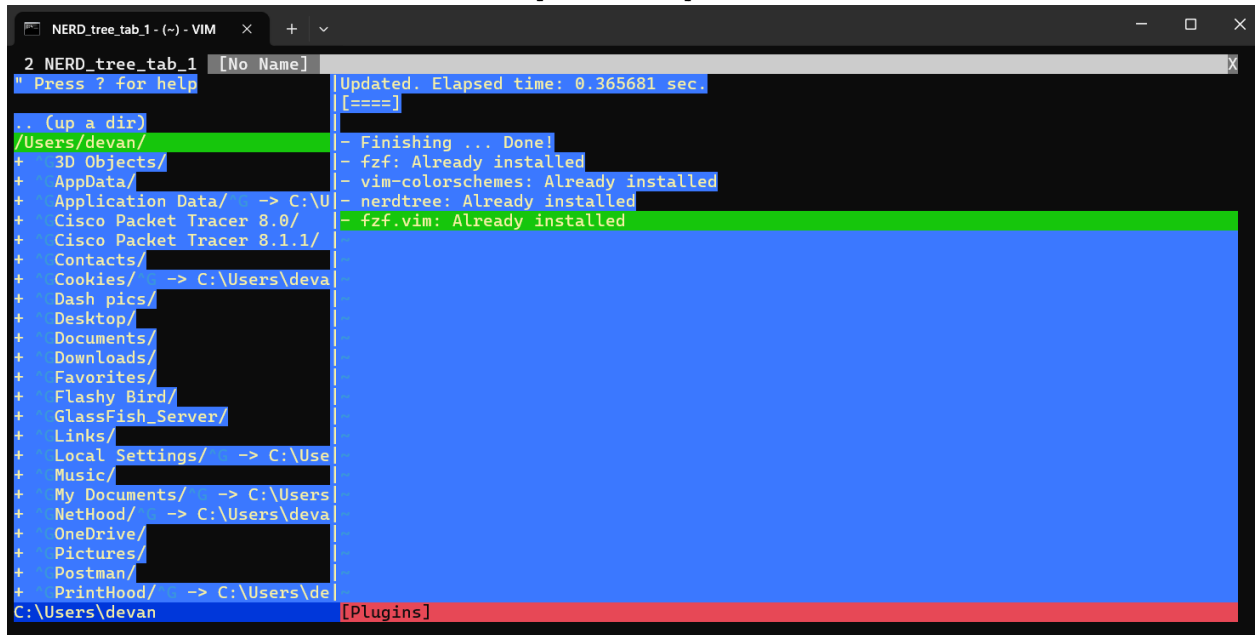

- ```
2. For nerdtree - do :NERDTree
```

```

NERD_tree_tab_1 - (-) - VIM  x  +  v

```

### 3. For Colorscheme – do :colorscheme [railscasts]

The screenshot shows a Vim window with the title 'NERD\_tree\_tab\_1 - (~) - VIM'. The left pane displays the NERD tree for the directory 'C:\Users\devan', listing various folders like '3D Objects', 'AppData', 'Desktop', etc. The right pane shows the output of the command ':colorscheme railscasts', which includes the message 'Updated. Elapsed time: 0.365681 sec.' and a list of installed plugins: 'fzf', 'vim-colorschemes', 'nerdtree', and 'fzf.vim'. The status bar at the bottom indicates '[Plugins]'.

### 4. For fzf – do :Files [coding]

The screenshot shows a Vim window with the title 'lcmd.exe [running] - VIM'. The left pane displays the NERD tree for the directory 'C:\Users\devan', listing various folders like '3D Objects', 'AppData', 'Desktop', etc. The right pane shows the output of the command ':Files coding', which displays a list of files and folders in the 'coding' directory, including 'changes.txt', 'daie.ipynb', 'html\_tags.txt', 'modules.xml', 'iris.data', 'Python.iml', 'gitignore', 'manage.py', 'yacc.y', 'PythonNotes.pdf', 'lex.l', 'a.exe', 'misc.xml', and '72332/384496 (0)'. The status bar at the bottom indicates 'Desktop\CODING\Python\..idea\misc.xml'.

5. Can also be done in gVim instead of Terminal:

➤ **Commands Executed:**

- 1) gvim [dash.py]
- 2) :PlugInstall
- 3) :NERDTree
- 4) :colorscheme asmdev
- 5) :Files [dash.html]

```
2 NERD_tree_tab_1 2 lcmd.exe [running]
